This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

# ADVERTISEMENT.

THE Proprietors of the CLERICAL GUIDE, in offering the *Third Edition* to the Public, return their respectful thanks for the favourable reception of the former Editions, and beg to add that no labour or expense has been spared to render the Work worthy of a continuance of their patronage.

In the present Edition, amongst other improvements will be found enumerated such Churches and Chapels as have been built, or are in progress, by His Majesty's Commissioners for building additional Churches and Chapels, in pursuance of several Acts of Parliament passed during the late and present reigns for that purpose; distinguishing such Parishes as have been divided by the Commissioners into *Ecclesiastical Districts*, by virtue of powers granted to them by Parliament.

The Proprietors have to offer their best acknowledgements to the numerous gentlemen who have furnished them with information of the changes and alterations that have taken place since the publication of the Second Edition; and they trust that in consequence of these communications the names of the *Incumbents* and *Patrons* of *Benefices*, will be found more correctly described in the present, than in the two former Editions.

THE

# CLERICAL GUIDE.

In the *First* Column, Market and Borough Towns are distinguished by an *; and *R.* for *Rectory*, *V.* for *Vicarage*, *C.* for *Chapelry*, *P. C.* for *Perpetual Curacy*, and *D.* for *Donative*. *D. R. District Rectory*, and *D. C. District Chapelry*, being such parishes as have been divided into ecclesiastical districts by His Majesty's Commissioners for building Churches and Chapels, by virtue of powers granted to them by Parliament for that purpose.

In the *Eighth* Column the Value in the King's Books, marked (‡) when discharged from the Payment of First Fruits; or C. V. for Clear Yearly Value when certified in order to obtain the benefit of the Augmentation Acts.

N.B. A line —— in either of the Columns, always refers to the Name or Word immediately above it.

Where † is prefixed, the Church or Chapel has been built, either wholly or in part, by His Majesty's Commissioners appointed by virtue of an Act of Parliament passed in the 58th year of King George the Third, intituled, "*An Act for building and promoting the building of additional Churches in populous parishes.*"

*** The Benefices in the *City of London*, will be found under letter *L*; in the *City of Westminster*, under *W*; and *Southwark* under *S*. Other Benefices near the City of *London*, but in the county of *Middlesex*, will be found in their respective places, i. e. *Bloomsbury* under *B*,—*St. Giles in the Fields* under *S*, &c. &c.

Where the population is not affixed to Chapelries, it is included in that of the Mother Church.
